

SHUBHAM RAI

DIGITAL MARKETING EXECUTIVE • SEO SPECIALIST • AI-ASSISTED MARKETING AUTOMATION

Bhopal, Madhya Pradesh | +91 9074356013 | shubham12rai@gmail.com | linkedin.com/in/shubham-rai-react-dev

PROFILE

Digital Marketing Executive with hands-on experience in SEO, content optimization, outreach, social media, YouTube SEO, and AI-assisted marketing workflows. I work across on-page, off-page, and technical SEO, from keyword research and competitor analysis to link-building and reporting. My earlier experience in React.js development gives me a practical understanding of websites, APIs, and technical SEO, helping me work comfortably with both marketing and development teams.

CORE EXPERTISE

SEO	On-Page • Off-Page • Technical SEO • SEO Audits • Keyword Research • Competitor Analysis
Growth & Outreach	Guest Posting • Link Building • Publisher Outreach • Web 2.0 • Social Bookmarking
Content & Social	SEO Content • YouTube SEO • Social Media Marketing • Canva AI • WordPress
Analytics & Ads	GA4 • Google Search Console • GTM • Meta Ads • Google Ads
AI & Automation	Claude • OpenAI Codex • ChatGPT • Accomplish.ai • AI-assisted workflows

EXPERIENCE

Digital Marketing Executive

Oct 2025 – Present

Carina Softlabs Inclusion, Indore

- Handle day-to-day SEO activities across on-page, off-page, and technical areas, with a focus on improving organic visibility.
- Research keywords, review competitors, conduct SEO audits, and identify content and optimization opportunities.
- Plan and manage outreach for guest posts, backlink acquisition, Web 2.0, and social bookmarking activities.
- Use AI tools such as Claude, OpenAI Codex, and Accomplish.ai to streamline repetitive SEO and content workflows.
- Create and optimize blog content and support content publishing and submission processes.
- Prepare social media creatives, YouTube thumbnails, and reel covers using Canva AI.

Frontend Developer (React.js)

Apr 2022 – Apr 2024

ThoughtWin IT Solution, Indore

- Built responsive web interfaces with React.js and reusable components for maintainable frontend applications.
- Integrated REST APIs and used Redux for application state management.
- Worked with backend and QA teams to troubleshoot issues, improve performance, and deliver reliable user experiences.

AI Marketing Automation & SEO Operations

StoneFly.com

- Supported SEO operations through AI-assisted content creation and workflow automation.
- Generated SEO-focused blog content and assisted with submissions for guest posting, Web 2.0, and social bookmarking activities.
- Created AI-assisted social media content and prepared regular SEO audit reports.

SELECTED WORK

Killer Kahaniyan — Managed YouTube and social media accounts; created thumbnails and reel covers; wrote SEO-focused titles, descriptions, and tags.

Craft.Camps — Handled outreach and guest-posting activities, coordinated with publishers, and maintained outreach records.

SmallHousePlan.com — Conducted backlink and guest-post outreach and supported off-page SEO tracking and execution.

TECHNICAL PROJECTS

StrBoard Mortgage — Developed a responsive mortgage platform with React.js, integrated REST APIs, and implemented Redux-based state management.

Edusity LMS — Developed frontend modules and responsive interfaces, integrated applications with backend APIs, and created reusable components for scalability.
