PROFESSIONAL EXPERIENCE

Digital Marketing Executive

October 2025 – Present

Carina Softlabs Inclusion, Indore

- Execute on-page, off-page, and technical SEO strategies to improve website visibility and organic search performance.
- Perform keyword research, competitor analysis, SEO audits, and identify opportunities for content and ranking improvements.
- Manage guest posting, outreach, Web 2.0, social bookmarking, and link-building campaigns.
- Automate SEO and marketing workflows using AI tools including Claude, Codex, and Accomplish.ai.
- Generate and optimize SEO-focused blog content and manage content submission workflows.
- Create AI-assisted social media creatives, YouTube thumbnails, and Instagram/Facebook reel covers using Canva AI.

Frontend Developer (React.js)

April 2022 – April 2024

ThoughtWin IT Solution, Indore

- Developed responsive web applications using React.js and built reusable UI components.
- Integrated REST APIs and implemented Redux for efficient state management.
- Optimized frontend performance and collaborated with backend and QA teams to deliver reliable applications.

AI Marketing Automation & SEO Operations

StoneFly.com

- Automated SEO workflows using Accomplish.ai, Claude, and Codex.
- Generated SEO-optimized blogs and supported automated submissions across guest posting, Web 2.0, and social bookmarking platforms.
- Created AI-assisted social media content and prepared weekly SEO audit reports.

KEY PROJECTS & CLIENT WORK

Killer Kahaniyan – YouTube & Social Media Marketing — Managed YouTube and social media accounts; created thumbnails and reel covers using Canva AI; wrote SEO-optimized titles, descriptions, and tags.

Craft.Camps – Outreach & Guest Posting — Executed outreach campaigns for guest posting and backlink acquisition; coordinated with publishers and maintained outreach databases.

SmallHousePlan.com – Outreach Campaign — Conducted outreach for backlink opportunities and guest posting; managed outreach tracking and supported off-page SEO initiatives.

TECHNICAL PROJECTS

StrBoard Mortgage — Developed a responsive mortgage platform using React.js; integrated REST APIs and implemented Redux-based state management; collaborated with backend developers to deliver a seamless user experience.

Edusity Learning Management System (LMS) — Developed frontend modules for Edusity Enterprise Edition and Central Content Repository; built responsive interfaces, integrated frontend applications with backend APIs, and created reusable components for scalability and maintainability.
